

# All your transport and logistics services on one platform – at your fingertips!

## All-in-one platform

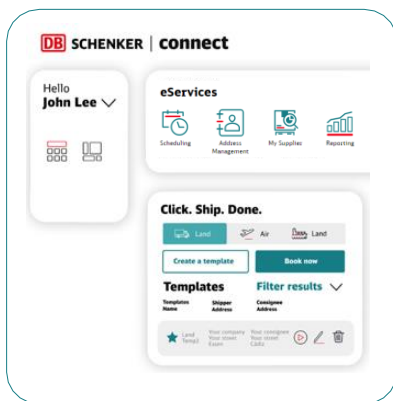

DB SCHENKER | connect gives you all your transport and logistic services on one platform, so you have full control over your business.

## Easy-to-use interface

Get more with less clicks! With DB SCHENKER | connect, we are simplifying the booking process. That means you can concentrate on your customers.

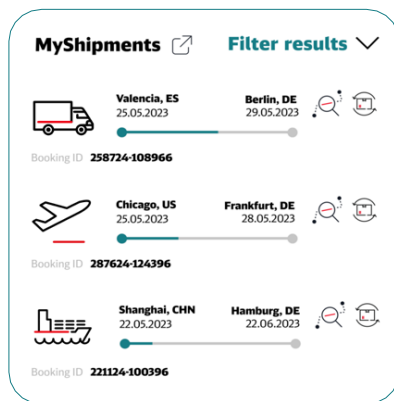

## Anytime, anywhere, any device

The DB SCHENKER | connect services are available 24/7 – you'll have access to what you need, right when and where you need it.

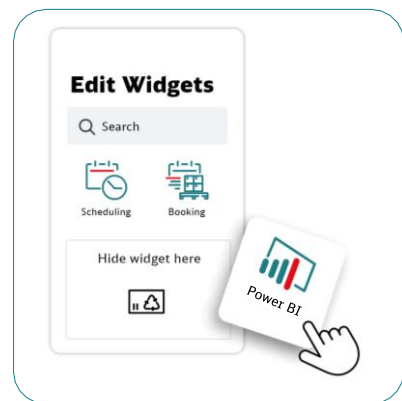

### Personalize your dashboard

You know best how to arrange your workspace. Our improved dashboard allows you to organize your widgets and quick links to match your individual requirements.

### All your shipments at a glance

Stay on top of your shipments with the advanced MyShipments widget. Your new bookings will automatically appear and keep you updated throughout every step of the shipping process.

### Quick access to all your services

Save clicks! Get started straight away with the eService widgets in your dashboard. Book, manage, and track your shipments faster than ever before.
